Noura Wafik

Product Designer - SaaS, Healthtech and AI Systems

Cairo, Egypt | hello@nourawafik.com | +20 106 987 7310 | nourawafik.com | linkedin.com/in/nourawafik

PROFESSIONAL SUMMARY

Product designer focused on AI-driven systems, data-heavy SaaS and healthtech platforms. Hands-on experience designing AI interaction patterns in production: two-sided AI assistants, AI-assisted diagnoses the provider approves, smart notes and voice-driven workflows. 6+ years of design experience, with recent years dedicated to product design.

Native Arabic speaker with deep expertise in Arabic UX, RTL design and bilingual (Arabic/English) design systems, currently designing for a Dubai-based SaaS company on products serving the Gulf, Egypt and US markets. Comfortable working on complex products on my own or with a small design team, and collaborating closely with engineering and business stakeholders. Background in brand and visual design that informs product decisions.

SKILLS

- AI interaction design and explainability
- Bilingual UX (Arabic / English, RTL design)
- Design systems and component libraries
- Accessibility (WCAG AA contrast)
- Multi-role product architecture
- Multi-platform product design (web and mobile)
- Information architecture for data-heavy products
- Cross-functional collaboration (engineering, business)
- Brand and visual asset creation alongside product work

EXPERIENCE

Product Designer

IdaamCloud | Dubai, UAE (Remote) | Mar 2024 - Present

Product designer on three concurrent SaaS products serving US, Saudi, Egyptian and remote markets:

- **Duet** - Two-sided AI hiring platform with an assistant for each side (Tempo for recruiters, Lyric for candidates). Designer on the design team, working on UX, AI interaction patterns and the design system from mid-fidelity to production specs, starting from wireframes drafted by the business team. Live on web and mobile.
- **Ulfa** - Bilingual (Arabic/English) mental wellness platform for small-group sessions. Built the design system from zero: four color themes in light and dark, in Arabic and English. Lead designer with one junior designer on web; solo on the Flutter mobile app.
- **Praxa** - Web platform for US mental health clinics, in use across 50+ clinics. Four-role architecture (admin, provider, patient, staff). Built a custom design system on Tailwind serving 9 feature areas. Designed AI workflows: smart notes, voice control, and AI-assisted diagnoses the provider reviews and approves.

Also handle product brand assets in-house: logos, marketing materials and product videos.

Product Designer (Part-time)

Yamm | Saudi Arabia (Remote) | Jun 2026 - Sep 2026

Design owner on a bilingual (Arabic/English) SaaS admin platform serving the Saudi market. Led design system governance, component audits across design and implementation, and RTL design standards. Project details under NDA.

Creative Content and Brand Strategist

istand-eg | Cairo, Egypt (Hybrid) | Oct 2021 - Jun 2024

Translated brand strategy into digital experiences and performance marketing assets. Designed conversion-focused campaigns and visual systems aligned with business growth objectives. Collaborated with marketing, content and sales teams to ship multi-channel campaigns.

Freelance Graphic Designer

MediaCom | Cairo, Egypt (Freelance) | Sep 2019 - Jan 2023

Delivered campaign assets for high-visibility advertising clients. Maintained brand consistency across digital and print for multi-stakeholder campaigns.

Graphic Designer

Artcook House | Cairo, Egypt | Jun 2020 - Mar 2022

Developed brand identity, packaging systems and visual guidelines in the F&B sector. Streamlined creative production workflows.

EDUCATION

Bachelor of Psychology

Ain Shams University | 2007 - 2011

LANGUAGES

Arabic - Native (Egyptian and Modern Standard) | English - Professional working proficiency

TOOLS

Design: Figma (advanced: design systems, auto layout, variables, tokens), FigJam, Miro

Visual and brand: Adobe Photoshop, Illustrator, After Effects

Workflow: ClickUp, Jira

AI-assisted: Claude, Claude Code, Figma MCP, Cursor

Design engineering: Built and deployed production websites with Claude Code, including nourawafik.com

Familiar with: Flutter and Vue handoff, Tailwind CSS

Team enablement: Ran Miro workshops for my team
